PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science undergraduate with practical exposure to AI-driven academic and fitness applications. Experienced in applying computer vision, basic machine learning concepts, and web technologies to solve real-world problems. Interested in developing structured, user-focused AI systems with strong academic foundations.

EDUCATION

B.Tech in Artificial Intelligence and Data Science Oct 2022 – May 2026

MES College of Engineering, Malappuram, Kerala - APJ Abdul Kalam Technological University

EXPERIENCE

AI Engineer/Research and Development *Dec 2025 – present*

Guido Freelance Project Centre, Kerala

- Identified, documented, and resolved software bugs, improving system stability and user experience.
- Researched and proposed development tools, frameworks, and automation solutions to streamline workflows.
- Designed and developed backend services using modern programming practices and database management techniques.
- Built and integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Performed system testing, debugging, and performance optimization to ensure reliable application functionality.
- Collaborated with cross-functional teams to deliver scalable, efficient, and maintainable software solutions.

PROJECTS

Mentora-AI – AI Mentor and Tutor System *Nov 2025 – May 2026*

- Designed and developed an AI-powered academic communication platform that automated interactions between teachers, students, and parents using Python, FastAPI, Google Gemini, OCR, and Twilio Voice API.
- Built an OCR-based document processing pipeline to extract information from attendance records, report cards, and academic documents, achieving 90% OCR accuracy and 88% processing efficiency, before generating AI-powered summaries using Google Gemini.
- Integrated Twilio Voice API with Gemini to deliver AI-powered outbound phone calls, enabling natural multilingual (Malayalam & English) conversations with parents for attendance, academic performance, and school notifications, achieving 95% call connection success and 89% communication efficiency during testing.
- Developed an end-to-end AI voice workflow combining OCR, LLM-based summarization, speech generation, and real-time conversational AI, achieving 78% response accuracy and 75% conversational efficiency for multilingual parent interactions.

Explainable Clickbait Detection System *Jan 2026 – May 2026*

- Developed an AI-powered clickbait detection system using DistilBERT to classify online headlines with high accuracy.
- Implemented a FastAPI backend and Chrome extension to analyze web content in real time and provide instant predictions.
- Built interactive visualizations and browser-based monitoring features to enhance user awareness and digital wellbeing.

RAG-Based Document Q&A Application *Jun 2026 – Jul 2026*

- Engineered data preprocessing and feature engineering pipelines using Python, NumPy, and Pandas.
- Performed EDA, statistical analysis, and data visualization to extract meaningful insights.
- Built and evaluated Machine Learning models using regression, decision trees, and random forests.
- Implemented NLP preprocessing and evaluated models using standard classification metrics.

SKILLS

- **Programming Languages**: Python, Java, JavaScript, SQL, HTML, CSS
- **Web Development**: Frontend Development, Backend Development, REST APIs, FastAPI, Responsive Web Design
- **Artificial Intelligence & ML**: Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Explainable AI (XAI)
- **Tools & Technologies**: Git, GitHub, Chrome Extensions, Chart.js, VS Code, Linux
- **Database Management**: MySQL, Database Design, Data Processing, Data Analysis
- **Software Development**: Object-Oriented Programming (OOP), API Integration, System Design, Testing & Debugging
- **Professional Skills**: Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Time Management, Adaptability
- **Communication**: Technical Documentation, Presentation Skills, Public Speaking, Active Listening

COURSES & CERTIFICATIONS

- Accessing Hadoop Data Using Hive – IBM Cognitive Class
- R Programming for Beginners – Simplilearn SkillUp, 2024
- Cyber Security and Ethical Hacking Internship
- AI/ML Internship – OutriX
- 1 Million Prompters- Dubai Future Foundation, 2026

ADDITIONAL INFORMATION

- **Languages:** English (Advanced), Malayalam (Advanced), Hindi (Beginner)
- **Availability:** Open to opportunities
- **Relocation:** Yes
